

Establishing Data Literacy Programs Through Collaboration

Michelle Edwards, University of Guelph
Carol Perry, University of Guelph

Internal Partners

Library

- Research Enterprise & Scholarly Communications Team
 - Data management consultation
 - Workshops & training
 - Data repository
 - Author rights
 - Copyright/licensing
- Data Resource Centre
 - Data discovery
 - Analysis
 - Software support
 - Survey support
 - Workshops & training
- Branch Research Data Centre
 - Restricted access support
 - Data discovery
 - Analysis support

Office of Research

- Graduate Student Research Project Management Course

External Partners

Data Liberation Initiative (Statistics Canada)

- Access & training

Canadian Association of Research Libraries

- Training

Odesi

- Access & training

Scholars Portal

- Tools & training

CRDCN

- Access

Data organizations & institutions

- IASSIST
- Sharing, using and repurposing tools and training materials amongst members
(eg. Digital Curation Centre, University of Edinburgh, UK Data Archive)

Future Plans

Initiate collaboration:

- SHARCNET (Shared hierarchical academic and research computing network)
- College Research managers

Increase collaboration:

- Office of Research
- Scholars Portal
- Possible distributed network
- Research teams on campus
- Canadian Association of Research Libraries
- External organizations
- Faculty & research groups
